@RainerHahnekamp

ANGULAR
ARCHITECTS
INSIDE KNOWLEDGE

Goal

- Cover major testing technologies and techniques
- Know when to use them
- Try them out

ANGULAR
ARCHITECTS
INSIDE KNOWLEDGE

Didactics

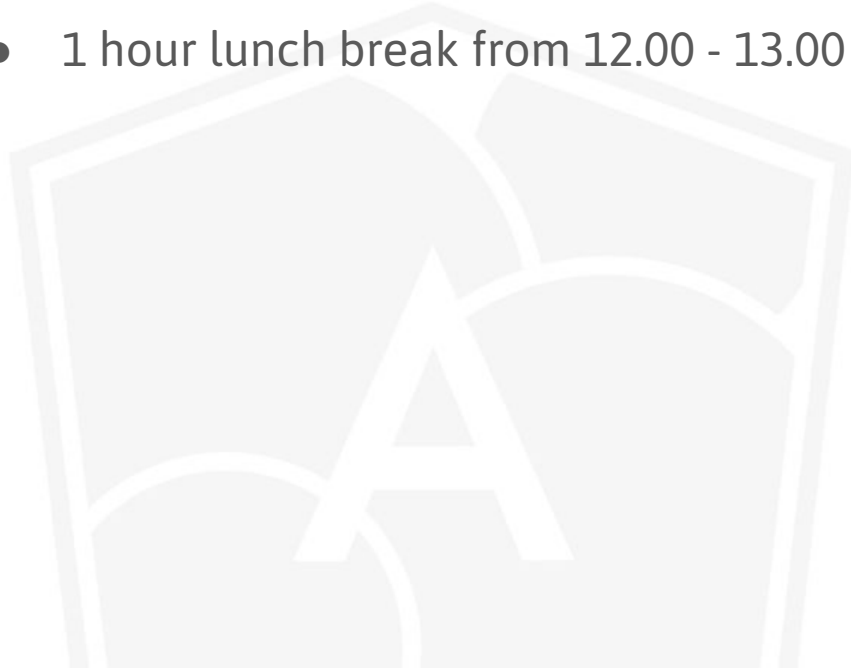

- Theory (Slides) & Live Coding
- Exercises á 40 minutes
- Discussion of Solutions
- **Your Input**

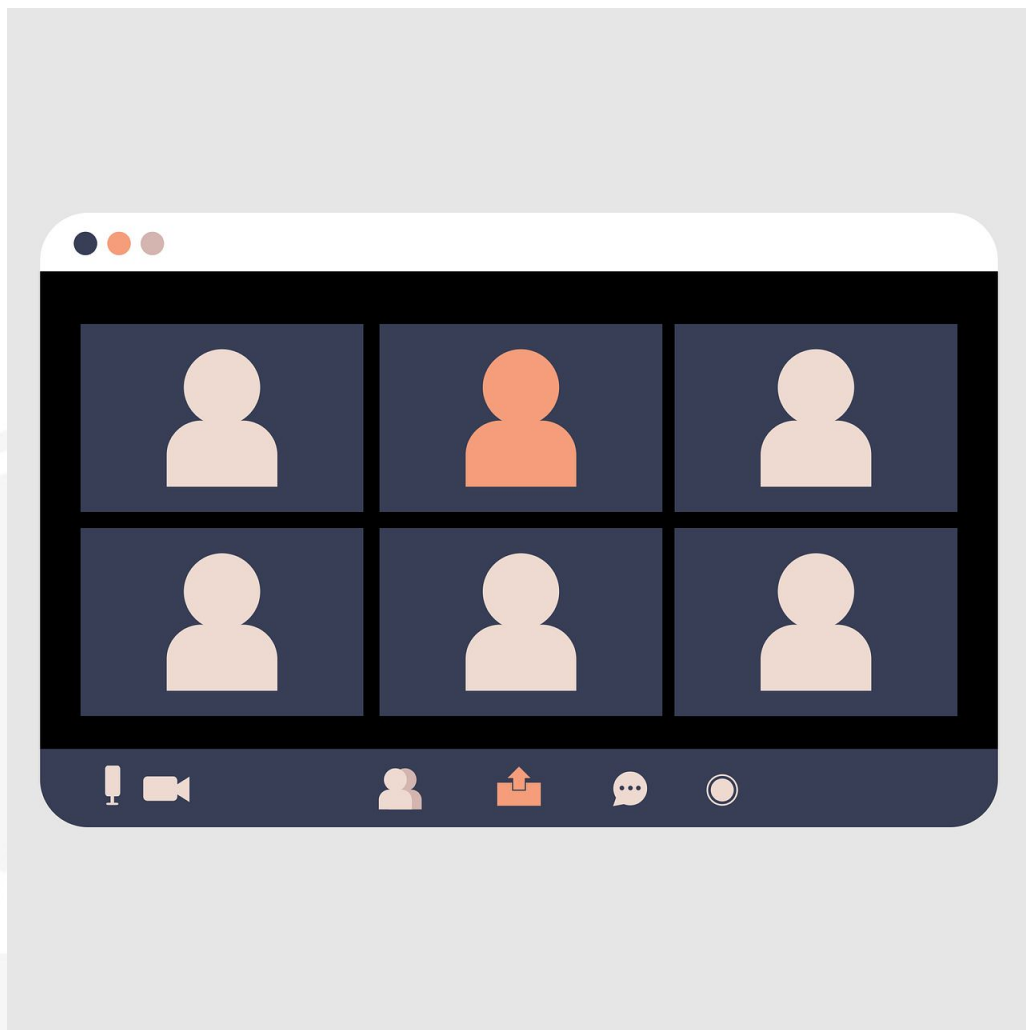

ANGULAR
ARCHITECTS
INSIDE KNOWLEDGE

Organisational

- 4 Units per Day
- 15 minutes breaks
- 1 hour lunch break from 12.00 - 13.00

INSIDE KNOWLEDGE

Agenda

Part 1

- Introduction
- Asynchronicity & Mocking
- RxJs Marbles
- Component & Integration Tests
 - a. Basics: TestBed
 - b. Advanced
 - i. Mocking Components
 - ii. Test Setup
 - iii. Spectator
 - iv. Harnesses

Part 2

- Testing Strategies
- End-to-End Tests
 - Basic
 - Advanced
- Visual Regression
- Storybook

Outside-In Tests

Integration Tests

State-Driven Tests

Inside-Out Tests

Sociable Tests

Behaviour-Driven Tests

Isolated Tests

Laser Tests

Component Tests

Solitary Tests

Flashlight Tests

Unit Tests

Integrated Tests

ANGULAR
ARCHITECTS

The "Better" Version

End-to-End (E2E) Tests

Integration &
Component Tests

Unit Tests

The Cypress logo, consisting of the word 'cypress' in a bold, lowercase, sans-serif font, with the 'c' in a dark circle.

The Jest logo, featuring a stylized red 'J' with a crown on top, followed by the word 'Jest' in a red, sans-serif font.

jasmine-core vs jest vs mocha vs vitest

Enter an npm package...

jasmine-core x

jest x

mocha x

vitest x

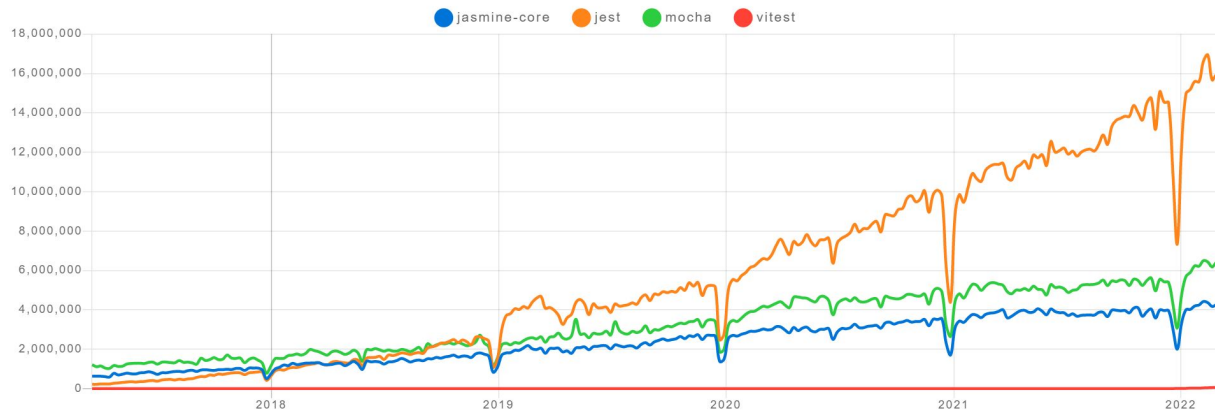

+ jasmine

+ qunit

+ ava

+ chai
